The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/565,099	Applicant(s) SOWA ET AL.	
	Examiner QUEENIE DEGHAN	Art Unit 1791	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 25 September 2009.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim s 1-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

3. Claim 1 recites the limitation "the first upper hollow cylinder" in line 9. There is insufficient antecedent basis for this limitation in the claim.

4. Furthermore, claim 1 recites a hollow cylinder in the first paragraph, a first upper hollow cylinder, and a second lower hollow cylinder in step (a). It is unclear how the hollow cylinder is related to the first hollow cylinder and the second lower hollow cylinder. Is the hollow cylinder the first upper hollow cylinder or does it comprise both the first upper hollow cylinder and the second lower hollow cylinder. Please clarify.

5. Similarly, the claim recites a core rod in the first paragraph, but then later claims a second core rod. It appears the hollow cylinder is the upper hollow cylinder because a constriction is formed therein. However, the core rod is inserted into the axial cylinder composite, yet a second core rod is inserted into the upper hollow cylinder. Please clarify.

Allowable Subject Matter

6. Claims 1-21 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Art Unit: 1791

7. The following is an examiner's statement of reasons for allowance: the prior art fails to teach a double elongation method for producing an optical component comprising forming a constriction on the inner bore of an upper hollow cylinder for supporting a core rod by drawing a first optical component from an axial coaxial arrangement of a first core rod and a lower hollow cylinder that is fused to lower end of the upper hollow cylinder, wherein the first optical component and the upper hollow cylinder is separated, leaving an upper hollow cylinder with a constriction to support a second subsequent core rod. This second coaxial arrangement further elongated to produce a second optical component.

8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 1791

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
